Hello Everyone – Here are 2 versions of DSO and Procedures. The manager highlight versions are clean copies – edits and comments removed but have the manager roles highlighted. The other 2 versions do not have the manager roles highlighted but do have all the comments and responses to comments. Hope this is what you wanted.

Two important points –

1. the Scientific Integrity Committee is integral to the implementation of both these policies. All but 3 are managers. The 3 that are not managers work closely with their managers on these issues. The Office of the Administrator has four representatives on the Scientific Integrity Committee (OCH, SAB, OP, and the deputy chief of staff).
2. The second is that the Science Advisor is briefed monthly on any developments related to either policy. The Science Advisor may then report anything to the administrator and or deputy administrator as needed...

Thanks – Maureen will be sending the other materials tomorrow.
